

K-Love provides a moral and character lyrics building message to me and members of my family with music that is contemporary and enjoyed by young and not-so-young alike.

In my opinion taking away this uplifting station from our community would leave a huge void. K-Love's motto is "positive and encouraging" and believe me-it is! All of us need it, especially our young people in these troubled times with the likes of Howard Stern and Eminem (sp).

We do not have enough music stations that provide our community with good character-building lyrics as it is, please do not take away one of the few stations that our young people like to listen to that does not tear down our society and degrade women.

Thank you.
